Re: Allocation of Medicaid Funding for Administrative Case Management for Services for Child Welfare Services

Dear County Director:

With the passage of SB 06-219 on June 6, 2006, the Department of Health Care Policy and Financing, in addition to distributing Medicaid funding for County Administration, is now responsible for allocating and disbursing Medicaid funding for alternative case management services performed at the county level. Counties have already received allocation letters for Medicaid funding for clients in the Families and Children's Program (Family Preservation / Core Services Program). This letter is for administrative case management for clients in the Child Welfare Services program.

Allocations shown in Table 1 are the maximum amount of Medicaid funding available to the counties for alternative case management for clients receiving Child Welfare Services. There is no county share associated with these funds, and all Medicaid funding was allocated through an agreed upon methodology with the Department of Human Services, and will also be reported in a corresponding letter from the Department of Human Services, but as informational only. Random moment sampling, performed by the Department of Human Services, will continue to determine the amount of Medicaid and non-Medicaid reimbursement to the counties.

The State of Colorado uses warrants and Electronic Fund Transfer (EFT) to process payments to vendors and contractors. If you are currently receiving warrants or EFT and you are not requesting a change in the method of payment, no further action is required. However, if you would like to change your method of payment from warrants to EFT, please complete the attached form and fax it to Tammy Davis at (303) 866-3669. If you need assistance in completing the form, please contact Ms. Davis at (303) 866-2310.
